And A Child Shall Lead is the heroic and true story of children coming of age in Terezin, the “Jewish city” established by the Nazis near Prague as a way station before the death camps. In the face of unspeakable horror, these children use their determination and creativity to build lives filled with hope and beauty - playing, studying, making art and writing an underground newspaper all at the peril of being executed. Their actual poems and stories are woven into a fast-paced drama, evoking the universality of children caught in the insanity of war.
